お客様に提案できる確かな技術力。

設計から金型組立て、製品検査まで一貫生産が可能なダイカスト金型工場になります。この工場の特徴としては、最新のハイサイクル仕様の金型を設計・製作できる人員と設備を保有しており、お客様がQCDで御満足頂ける金型を生産できます。

金型サイズとしては、小型(135トン)から中型(1250トン)までを中心に対応します。

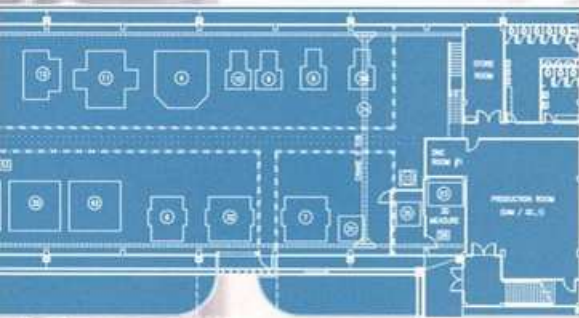

また、コアピンの専用ラインを保有しており、予備ピンの製作もお客様の御要望通りに柔軟に対応できます。

## Reliable Technology will fulfill the Customer's needs.

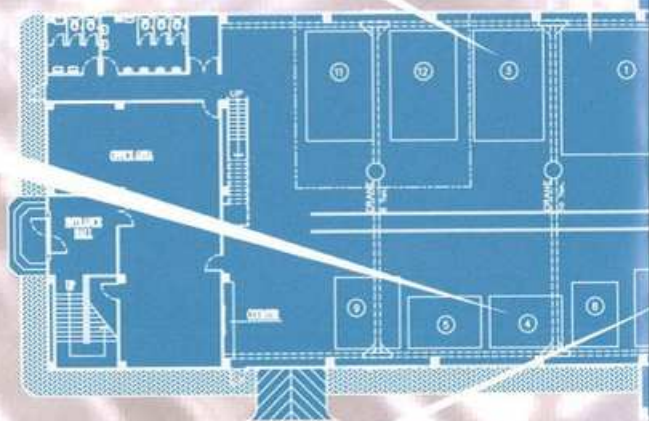

From designing die & mould making and product inspection. We are now a die cast factory that does the complete process. The characteristics of the factory is that we possess human resources and facility that are able to design and produce dies & moulds that our customers will be fully satisfied with. We are able to cope with small size (135 ton) moulds to medium size (1250 ton) moulds. We own line designated to core pin and will be able to flexibly manufacture spare pins to your needs.

## 最新設備による効率的な生産工場

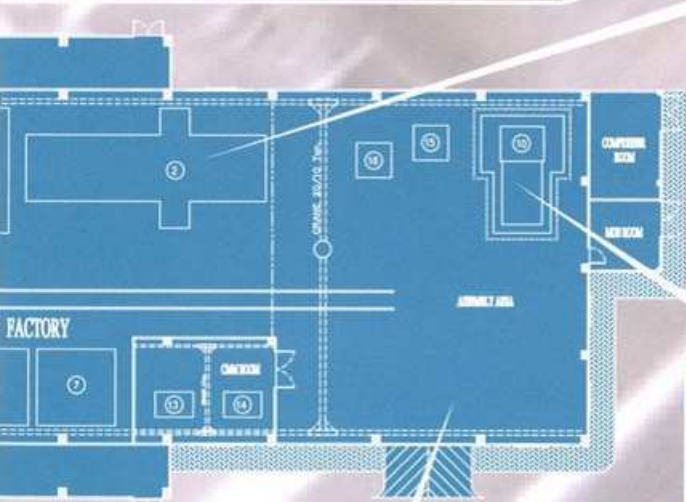

加工から組立てまでの製造のみを担当するダイカスト金型工場になります。  
この工場の特徴は、中・大型の金型に特化しており、最新大型設備により、  
高速・高精度な加工が可能な弊社グループの最新金型工場になります。  
金型サイズとしては、中型(800トン)から大型(2500トン)までを中心に対応します。

**The efficient Production Plant is supported by the newest facilities.**

It will be a die cast factory that will only handle from processing to assembly. The characteristics of this factory is that it is specialized in medium and large dies & moulds equipped with latest models of huge facilities which is the first dies & moulds factory in our group with latest equipments. The factory can handle the dies & moulds sizing from medium (800 ton) to large (2500 ton).

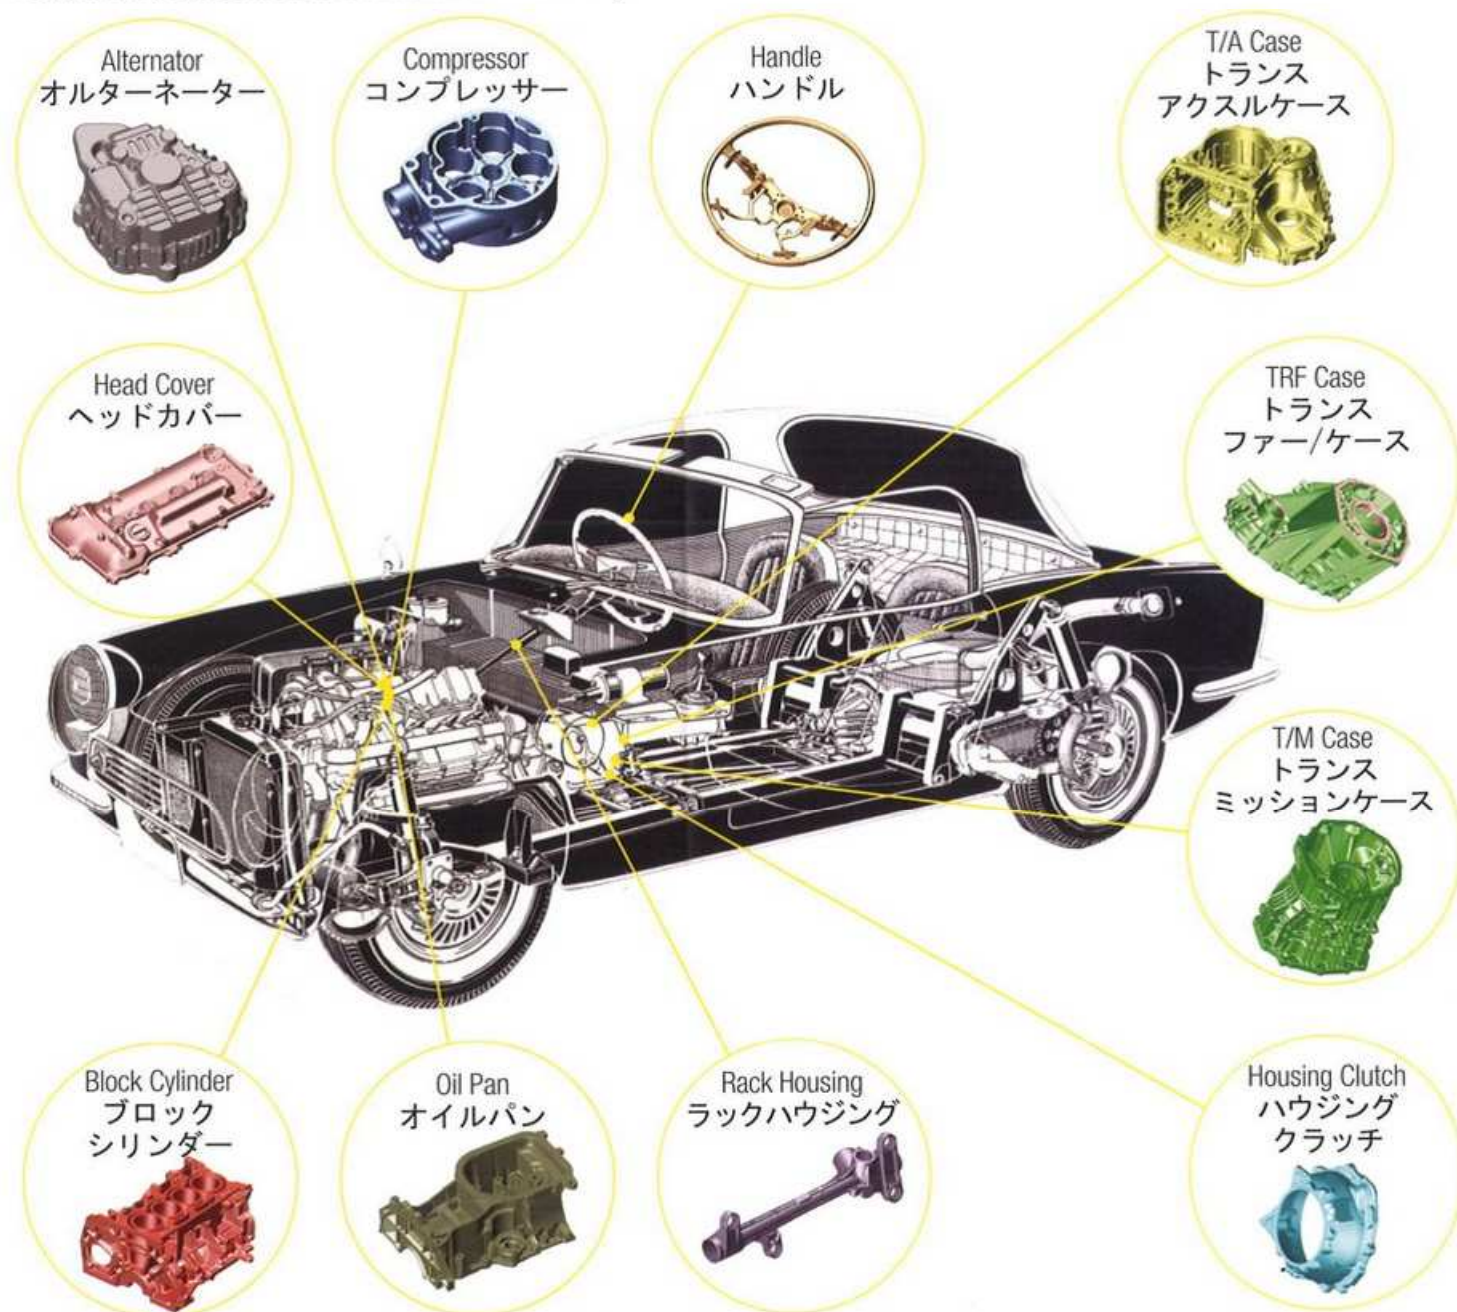

# Production Profile

型は、ものづくりの原点。可能性は、無限大。モノには、必ずカタチがあります。そのカタチを量産しようとする時は、カタチの元となる型が必要となります。つまり型は、モノの生みの親、モノの原点なのです。しかもそのカタチは、千差万別、変幻自由。時の需要と供給の係わりにおいて、数限りなく発生し、必要となります。モノの、いやモノづくりの原点である型は、必要性和可能性が無限大なのです。そのような中核に位置するSAMTは、常にモノづくりの原点を振り返り、高性能・高品質・高精密の品をお届けすべく力を注いでいます。モノがある限り、SAMTは、発展しつづけます。

Moulds are the starting point of manufacturing. The potential of moulds is infinite. Objects always have their shapes. When we wish to mass-produce that shape, the mould that forms the basis for that shape is necessary. In other words, moulds are the parents that give birth to objects, the starting point of objects. Moreover, these shapes come in endless varieties and can change in diverse ways. An endless number of shapes occur and are necessary in order to meet demand and supply at any given time. Moulds, which are the starting points of objects, or rather the starting point of making objects, have infinite needs and possibilities. Shippo Asahi Moulds (Thailand) (SAMT), which is positioned at the core of these possibilities, always reflects on the starting point of making objects, and focuses its efforts on delivering products that offer high performance, high quality, and high precision to our customers. As long as there are objects, SAMT will continue to grow.

## SAMT の金型から生まれた自動車部品

Car parts are produced from the Mould made by SAMT

SAMTは、タイ国内のみにとどまらず、世界中に様々な金型を出荷しています。  
SAMTは、お客様の要望があれば世界中どこにでも高品質の金型・金型部品を届けします。

SAMT deliver various moulds to around the world, not only Thailand.  
SAMT deliver High quality Mould & Mould Parts to all over the world.

# Message from President

## 社長挨拶

弊社は、タイに進出して今年で20年になりますが、この度タイに2番目の工場をオープンすることになりました。私もバンプリー工場立ち上げ時からこの会社に大きく関わっており、20周年という記念の年に皆様に大変良いニュースが御報告できるのは、誠に喜ばしいことです。20年でここまで会社が成長できたのは、お客様の温かい御指導や従業員の努力の賜物だと思います。

今後についてもお客様の御要望に最大限耳を傾けて、お客様とパートナーシップを築きながら、従業員一同更なる技術革新・顧客満足を追求していきたいと考えています。

今まで通りの御支援をよろしくお願いします。

七宝金型工業株式会社

SHIPPO ASAHI MOULDS (THAILAND) CO.,LTD.

代表取締役社長 松岡寛高

This year is the 20<sup>th</sup> year since our company starting the operation in Thailand and now we have opened our second factory in Thailand. I have been deeply involved in this company since the time we launched the Bangplee Factory and I am so pleased to be able to report this cheering news to all of you this year when we are commemorating our 20<sup>th</sup> anniversary in Thailand.

I believe that the growth our company has achieved over the last 20 years is thanks to the generous support from our customers and the efforts of our employees. Going forward we will continue to focus our attention on the needs of our customers as much as possible in order to build partnerships with them, as all of our employees pursue further technological innovation and customer satisfaction.

We would appreciate it if you continue to support us as you have always done.
